

TENNESSEE GENERAL ASSEMBLY
FISCAL REVIEW COMMITTEE

FISCAL NOTE

HB 2434 - SB 2552

February 15, 2014

SUMMARY OF BILL: Requires a local education agency (LEA) to promote a student who has missed more than the maximum allowed number of days pursuant to the LEA's attendance policy if the student completes the required coursework and curriculum. Requires the LEA to obtain: written documentation from the parent or guardian to explain absences; documentation from teachers that the student has completed the necessary requirements; and any additional information required by the Department of Education or the LEA.

ESTIMATED FISCAL IMPACT:

Other Fiscal Impact – State and local Basic Education Program (BEP) expenditures will decrease in the second fiscal year following high school graduation of students that were promoted as a result of this bill. Any such decrease in expenditures is dependent upon multiple unknown factors and cannot be reasonably quantified; however, any decrease will not significantly impact the BEP funding formula in any given fiscal year.

Assumptions:

- The number of students who will be promoted as a result of this bill cannot be reasonably quantified. The grade level that such students are in at the time of promotion; the BEP funding in the years following their promotion; and the school system from which they graduate will be factors that influence any decrease in state and local BEP expenditures.
- Currently, students are counted in the BEP funding formula in the year after they graduate high school.

CERTIFICATION:

The information contained herein is true and correct to the best of my knowledge.
